Use of Back Yard Gardens Are Urged by Kansas Board.

Keep Children Out of Mischief During Spare Time.

Emporia, Kan., Nov. 2.—A plea for the back yard as the means of reducing the high cost of living and of developing the character of the children of Kansas is voiced in the last report of the state board of educational administration. The report says:

"The high cost of living and the big loss from idleness in our children are problems that the schools should be reaching far more effectively than they now are. It is not as we have said, possible to use all of our children's outside time in even supervised play. The school garden has its place, but it has the danger of assuming the artificiality of the schoolroom."

"We have back yards and front yards and thousands of vacant lots that are an eye sore to the community. The fertilizer and the water is available to make the front yard a thing of beauty and the back yards not only beautiful, but very profitable to the family."

"In place of the withered vegetables that come from the hucksters at fancy prices, it is possible to have without cost the crispest and freshest of vegetables and at the same time to give the child the best training possible in applied botany and biology, and to cultivate in him the beauty and productive instincts."

Use Children's Waste Time.

"As we indicated in our last report, our training schools for the children below the high school have been interested in this work, and as an object lesson to these teachers who are to go to the schools of the state and to the school boards of the state on this method of utilizing the waste time of the children and the waste places of the cities, and in training the children for productivity as citizens and the elimination of waste, the legislature should make an appropriation of \$500 per year to be used as prizes to promote this work at the Normal Training schools."

"No greater contribution could be made to Kansas than the waste time of her boys and girls and to cultivate and beautify the waste places in our cities."

NOT AN EGG IN WHOLE TOWN.

Stores and Houses in Scott City Without Hen Fruit All Day.

Scott City, Kan., Nov. 2.—For the first time within the memory of many of its oldest citizens Scott City was eggless Tuesday. That is, there wasn't a single shelf of stable hen fruit to be had at any of the stores and judging from the number of calls for eggs from customers, there were few larders in the city that were much better off from an egg standpoint.

The reason for this unusual scarcity of eggs at this time of year is a puzzle. So far this year the weather has been mild and entirely conducive to good egg-laying. The whims of hens is a problem, however, that neither grocers nor anybody else seems able to solve.

Relief from the egg famine seems to be forthcoming only from the importation of the cold storage brand. The local retailers are so accustomed to depending on country produce to supply their demand for eggs that the sudden exhaustion of this source has placed them squarely in line for the cold storage egg salesmen.

MRS. BLATCH TO WICHITA.

New Topeka Resident Will Speak in Place of Mrs. Bolisevain.

Wichita, Kan., Nov. 2.—Mrs. Harriet Stanton-Blatch, who gave up her residence in New York City and came to Kansas to make her home last spring, that she might have the privilege of voting, will give an address tonight at Philharmonic hall. She is coming from Topeka to fill the place of Mrs. Inez Milholland Bolisevain, who was expected to speak here at that time.

Mrs. Bolisevain has found her western life more than she can stand. She is suffering from throat trouble and has been compelled to cancel her dates until November 4, when she will speak at the Blackstone hotel in Chicago.

Mrs. H. Colvin who was in Wichita last spring, was here yesterday arranging for the meeting. She will come from Topeka with Mrs. Blatch Thursday as will Miss Katherine Morey.

MAKE HALF MILLION BROOMS.
Five Hundred Tons of Broom Corn Raised in Stevens County.

Hugoton, Kan., Nov. 2.—The 500 tons of broomcorn produced in Stevens county this year, when made into brooms, could be used for sweeping the floors of all the buildings in the United States, if they were handed about sufficiently. A ton of broomcorn will make from 1,000 to 1,100 brooms. It is claimed, and a half million brooms will do a lot of sweeping.

The price received for this broom probably ranges from \$100 to \$200 a ton, depending on the time marketed and the quality, and adds about \$75,000 to the amount of money put in circulation in the county. Manufactured brooms are high, of course, but when the broom corn grower gets a good price he buys more of the commodity that some other fellow produces.

FLY TAKES EARLY WHEAT.

Grain Sown Before October 1 May Have To Be R-planted.

McPherson, Kan., Nov. 2.—County Agent V. M. Emmert reports that there are some fields where the wheat was sown early in which the Hessian fly is busy. A few farmers are plowing the fields over and will sow again. The effect of the fly appears in those which were sown before the first of October.

The wheat had come up and the stalks are still green but investigation will convince one that it will be so badly infested that it may not even live thru the winter. No effects are seen in fields planted after the first of October.

STRIKE OIL NEAR EUREKA.

Hundred Barrel Well Brought in at Depth of 1,905 Feet.

Eureka, Kan., Nov. 2.—Oil was struck here at a depth of 1,905 feet by the Wichita Natural. The drill penetrated the sand to a depth of eighteen inches. It is estimated that the well is good for 100 barrels. The well is on the fair grounds about half a mile east of town. The nearest oil

25 YEARS AGO IN TOPEKA

From the columns of THE TOPEKA STATE JOURNAL

November 2, 1891.

Miss Edith Campbell gave a small dancing party last evening celebrating her sixteenth birthday.

The State University football team will play the Washburns on the Washburn grounds, November 15.

The Saturday Night club met in F. H. Posters law office Saturday evening. "Is the People's Party Scheme for the Issue of Flat Money Constitutional and Feasible?" was the theme discussed. Robert Stone read the paper.

The following members of the Athanum Literary society received grades of 90 per cent or above in their exercises Friday and Saturday morning: Clara Lindwood, Helen Schenck, Nettie Burdick, Ulysses Seal, Mary Hunter, Arthur Kane, Nellie McClintock, Louis Bell, Mary Kellam, Florence Lewis, Fred Blake and Clara Day.

The political situation in Kansas on this evening before election is complicated. In fact, since Kansas entered the union the prospects of an election were never more uncertain tonight. The most interest is perhaps centered in the judicial district fights. There are ten of these to be fought and the Sixth judicial district Judge S. H. Allen was elected last year to fill a vacancy by a 1,400 majority. He is a Democrat and has the support of the People's party which renominated him this year. The Republican candidate is J. S. West. The Sixth district will be the battle ground of one of the fiercest contests of the year. It is a People's party stronghold and both Democrats and Republicans have united upon Judge James Humphrey, a stalwart Democrat, to defeat Judge S. H. Nicholson who deserted the Democrat party to secure Alliance nomination. Another big fight is in Deater's district. There the cry is "socialism" and anti-socialism. Judge Deater is the People's party candidate and an open advocate of socialist theories. Until recently he was an advocate of free-love. His opponent is a Democrat, Lucien Earle. In the Third district a newspaper socialist scheme of socialization, the Knights and Ladies of America, has made inroads upon the Alliance and its influence will be felt tomorrow.

Following are the four straight party tickets that will be offered to Shawnee county voters tomorrow to choose from: Republican, Democratic, People's Party and Prohibition.

Republicans. For circuit judge, J. B. Johnson; for county treasurer, A. K. Rodgers; for sheriff, J. M. Wilkerson; for register of deeds, S. J. Bear; for county clerk, J. M. Brown; for coronor, Dr. E. W. Bailey; for county surveyor, B. A. Bailey; for commissioner, J. Lee Knight.

Democratic. For sheriff John Mueham; for county clerk, George Tamber; for county treasurer, E. D. Small; for register of deeds, Frank S. Thomas; for coronor, Dr. J. W. Donaldson; for county surveyor, W. H. Kinney; for commissioner, O. W. Blood.

People's Party. For circuit judge, W. P. Donahitt; for treasurer, E. J. James; for sheriff, A. B. Webster; for clerk, W. W. Wiley; for register of deeds, D. J. Jones; for surveyor, A. H. Westberry; for coronor, Dr. J. A. Reed, and for commissioner, Wm. Dignon.

At a meeting of the Ministers' Union this morning the exhibitions of "Gale's Girl" pictures on the billboards and in the windows came up for a discussion that was more than a little heated. A resolution was adopted protesting against the show bills. Lottery schemes resorted to by various merchants were also denounced as a growing evil. One radical reformer said that he had a newspaper scheme to publish a list of the names of the ministers who had been found guilty of having a gasoline stove in a parlor. The next subject that came up for consideration was the Sunday morning papers. The ministers were all of the opinion that it was wrong to allow any notice of a church service to appear in a Sunday paper and a committee was appointed to visit Major Hudson and request him to comply with their wishes. The committee also was to be published in his Sunday paper. Rev. T. W. Harris of the Westminster Presbyterian church was appointed chairman of the committee. Col. Hogeland came in about this time and six of the ministers immediately found business elsewhere. Only about 14 were left to hear the friend of the newsboy explain his scheme to build reformatories and homes for the boys and girls who were at a salary not yet determined upon. Col. Hogeland asked the Union to give him a letter of endorsement and further suggested that contributions from the various churches would be thankfully received. The secretary was instructed to give the letter to be for but there was no response to the plea for funds.

LOVES HIS ENEMIES

Von Hindenburg Wants Peace for "Whole Blood Stained World."

London, Nov. 2.—The Berlin Vorwarts, commenting on the interview with Field Marshal von Hindenburg yesterday in which he discussed many phases of the war, says, according to a Berlin dispatch forwarded by Amsterdam:

"He advises France to be reasonable and not to act as a further obstacle to peace. This advice will have a better chance of being heard abroad if we show ourselves reasonable too. If we are going to draw this war on indefinitely then the whole of Europe will bleed to death and America and the colored races would be our heirs."

"But we want Europe to live, not Germany only, but all the nations," said von Hindenburg. "We want France to live. We see her now bleeding white but we have never hated her. We want peace for England and Russia, peace for the whole blood-stained world."

Stamps American Planes "N. G."

Amsterdam, Nov. 2.—The Batavia correspondent of Telegraf wires that the war department is in consternation over an aeronautic expert's report condemning American biplanes supplied on the ground that their cylinders are too soft and are worn out after two hours of flight. The correspondent says the trials have been stopped, perforce, and that the Dutch command in San Francisco is blamed for passing the machines after a too perfunctory examination.

Did You Ever Hear Marie Rappold Sing Ava Maria?

If you have ever heard this famous soprano of the Metropolitan Opera, sing this or something else, and will come and hear Edison's Re-Creation of her voice, you will say that one is indistinguishable from the other.

The NEW EDISON

—it is the great inventor's favorite invention. The New York Tribune says, "it is a musical instrument that snares the soul of music." It is the phonograph with a soul. It is the instrument which literally Re-Creates all forms of music.

Special Concert Every Day

To show how perfectly this wonderful new instrument Re-Creates the greatest voices and the artistry of the greatest instrumentalists, we give a special concert every day.

Come to our store at any hour in the afternoon and you will hear the literally reincarnated voices of the great Metro-

politan Opera stars, Destinn, Matzenauer, Case, Rappold, Heinrich, Urlus, Middleton and Goritz, as well as Zena-tello and Chalmers of the Boston Opera company and also the masterly bowing of Spalding, America's greatest violinist, and Carl Flesch, the wonderful Hungarian violinist. Come at any hour.

The Crosby Bros Co

AS REGULARLY as the COCK CROWS

If you have a tendency to costiveness, an ounce of Nujol at night will make your morning brighter.

Nujol promotes regular habits by helping to restore the normal action of the bowels. Ordinary laxatives and cathartics tend to destroy this normal action by over stimulating the intestinal nerve centers. Hence the "pill-habit" is a dangerous one.

Nujol is not a laxative or a pur-

gative. It acts in effect as a mechanical lubricant, preventing the intestinal contents from becoming hard, and so encouraging natural evacuations.

All druggists carry Nujol which is manufactured only by the Standard Oil Company (New Jersey). Avoid substitutes. Write today for booklet "The Rational Treatment of Constipation."
